JEUR DIRUTCH O - JUMMER TERM

The children have been learning to explain that the Bible came

together over a period of more than a thousand years and contains sacred text from Judaism, the four Gospels, and other early writings of the church. The children broke down the Torah using a Brace Map into different parts, the books, the language, where it is kept and interesting facts. The

children explored the place of Sacred Scripture in Jewish Life Today and they recognised that the Tanakh uses different names for God that reveal aspects of his nature.

Judaism & Christianity Venn Diagram Comparison

The children explored the similarities and differences between Judaism and Christianity. They researched and created Venn diagrams to show their findings

for Christians, not just the New Testament. They explored the Story of Abraham and how the Jewish belief is that a covenant agreement was made between God and His chosen people, the Jews. God made his first covenant with Abraham and the children retold the story in a comic style digitally.
